EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims

In claim 5: line 5, "focused" has been replaced with – reduced-size --.

In claim 11: line 5, after "sub-images", -- , --(comma) has been inserted.

In claim 55: line 7, at the beginning of the line, before "image", "display" has been changed to – displayed --.

In claim 58: line 2, "project" has been replaced with – projects --.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Vis-à-vis the broadest independent claim 1, Opey' 309 and Opey' 383 are two best references of record. Despite striking similarity of their devices with that of the present invention, as broadly recited in claim 1, the latter devices fail to teach or fairly suggest the focusing characteristic of claim 1. In light of this difference, it is concluded that the devices of the patents and that of the present claim 1 contain divergent subject matters.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
